ABOUT US

"The extreme always makes an impression" with that in mind, Aroma laminates brings to you India's extremely premium Decorative High Pressure Laminates. We are known to provide the best quality of laminates and we offer a wide range of products to satisfy the needs of our each and every client. Pioneering into the market of laminates for over a decade, Aroma has now entered into the market of other types of laminates as well.

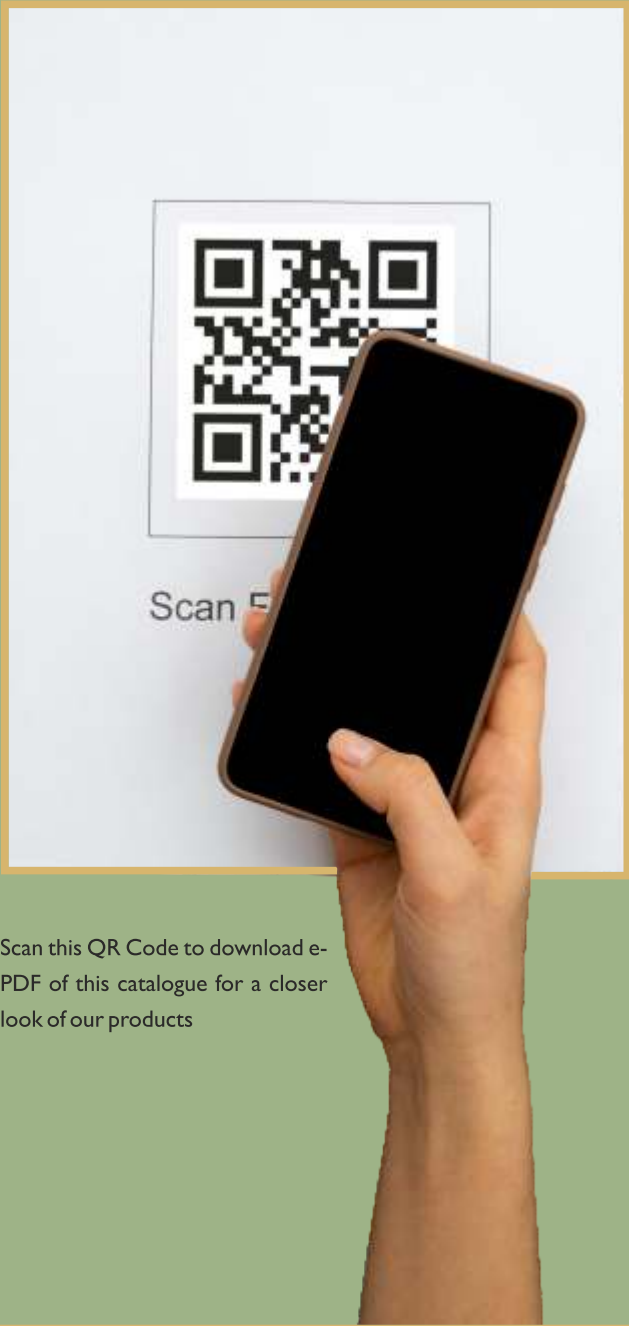

Our laminates are manufactured keeping the quality in mind. That's why we have been accredited with ISI 2046:1995, ISO 9001:2015 and ISO 14001:2015 and certified with British, European Standards (BS EN 438) and NEMA Standards (ANSI/NEMA LD 3). Our 7 Point quality control system enables us to check each sheet that manufactures in our units by processing them under seven different quality checkpoints

PRODUCT TECHNICAL DATA & SPECIFICATIONS

Type : Conventional Cold Press Grade Laminate for Interior Application
(Other Grades Available on Request)

Range / Thickness : 1.00 MM (± 10% As per International Standard
(Other Thickness Available on Request)

Size : 1220 MM x 2440 MM (8' x 4')

Product Standard : Comprising to British European Standard : BS EN 438
American NEMALD 3 ,
BIS (Bureau of Indian Standard) IS : 2046
BIS (Bureau of Indian Standard) IS : 2036
Grade P1 Phenolic / Electronic Insulation.
ISO 4586

PRODUCT CARE AND MAINTENANCE

For cleaning the surface of the Laminates, use dry cloth to wipe the stains. If needed can use ordinary liquid detergent (Non-Acidic) or ammoniated liquid. After taking a trial on small portion. Stain remover or industrial organic solvents can be used to remove stubborn stains ib case if there is no problem. One should not use, wire or hard - plastic brushes, and abrasive to clean the surface.

Since, conventional laminates are made for interior decoration, should not be used for external use where there are chance for direct exposure to sunlight or any other sort of direct heat.

It is always recommended to keep the substrate horizontal while pasting the laminates, Immediate removal of pressure and vertical application should not be practiced.

Sample pasted in the folder represents the finish & design and not the actual thickness.
